AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

 (Currently Amended) A method of associating a destination document to a source document during a save operation, comprising:

defining contextual metadata of the source document, wherein the contextual metadata includes a location of the source document:

identifying a target document by a content and contextual data;

bundling the target document, and the contextual metadata of the source document as attributes of the target document;

saving a bundled target document as the destination document, the destination document being a final document that includes the target document bundled with contextual data about the source document;

wherein bundling the target document comprises merging the contextual metadata of the source document and the contextual data of the target document as attributes of the target document;

automatically synchronizing the destination document to the target document, to reflect changes in the target document; and

wherein defining the contextual metadata of the source document further includes defining the contextual metadata of the source document further includes defining a navigation path from the source document to the target document, to enable a client to return to the source document from the target document, even if one or more intermediate

documents along the navigation path no longer exist.

2-4. (Canceled)

- (Previously Presented) The method of claim 1, wherein defining the contextual metadata of the source document includes defining the address of the source document.
- (Original) The method of claim 5, wherein defining the address of the source documnet includes identifying a URL of the source document.
 - 7. (Canceled)
- (Original) The method of claim 5, wherein defining the contextual metadata of the source document further includes defining input parameters required to generate the target document.
- (Original) The method of claim 8, wherein defining the input parameters includes defining an input search query.
- (Original) The method of claim 5, wherein saving the bundled target document includes saving the destination document on a networked data repository.

11-26. (Canceled)
